CARE FOR EVERY GADGET.

DUST

Portable Turbo Air Blower

BLO2 | Instructions

1 Switch On

Press and hold the power button to switch on.

2 Adjust Airflow

Press the power button briefly to move up one speed setting. Hold it after switching on to change settings quickly.

3 Switch Off

Press the power button twice quickly to switch off.

Display

After startup, the display shows the battery level. Battery level and speed readouts alternate approximately every 10 seconds.

Charging

Connect a USB-C cable to a 5 V / 2 A power supply. Allow about 2.5 hours to charge. The screen displays the current battery level while charging and shows 100% when full. Avoid overcharging or completely discharging the battery.

Parts

Air outlet • LED display • Power/speed button • USB-C charging port • Air inlet

In the Box

Blower ×1 • Charging cable ×1 • Manual ×1 • Blowing covers ×2

Care & Safety

- Never block the inlet or outlet or insert objects into them.
- Keep hair away from the inlet to prevent it being drawn into the fan.
- Keep dry. Do not immerse in water or use with wet hands.
- Keep away from baths, showers, basins and humid storage areas.
- Do not use near petrol vapours, flammable aerosols, paint thinners or solvents.
- Do not leave the blower running unattended. Switch off after use.
- Keep out of reach of children and pets.
- Do not use damaged or overheating charging cables. Do not bend, pull, twist or crush the cable. Replace damaged cables before charging.
- Stop using immediately if airflow stops, the unit repeatedly shuts down, overheats, glows internally or emits smoke.

Specifications

Input: 5 V / 2 A
Weight: approximately 275 g
Dimensions: approximately 145.8 × 117.3 × 39 mm

Manufacturer-stated operating time: approximately 25 minutes; varies with use.

Keep these instructions for future reference.
